Company profile

Likuan Hardware Industrial Co. Ltd., established in 2000, is a professional faucet manufacturer specializing in kitchen and drinking water faucets. We staff not only excellent engineers but also knowledgeable and talented RD staff to design our products. Our greatest challenge is to offer our customers what they need before they know they need it. Likuan concentrates its efforts on developing novel designs, patenting faucets and investing in state-of-the-art equipments so as to increase the competitive advantage it provides to our esteemed customers. In addition, we conduct test on all our products with criteria above and beyond that which is required by the industry standard as to guarantee a quality product for our customers. As a leader within the field, the company is constantly and consistently attaining new certifications that help us to maintain our competitive edge. Likuan firmly believes that its customers deserve the best quality, reasonable prices, innovative designs, environmentally friendly products while also being safe, reliable, and exquisite. Supplying clear and fresh water to every family worldwide is our ultimate mission.

History

2000–Likuan Hardware Industrial Co. Ltd. was founded on August 29th, 2000 and specialized in drinking water faucets and accessories.

2004–Likuan's products obtained National Science Foundation (NSF) Certification.

2007–Likuan was honored with the distinction of having ISO 9001 Certification.

2008–Innovated a series of fashionable, environmental friendly, and no heavy metal pollutants contained in sections that have contact with water.

Greener Faucet

Recently, more and more experts have begun consistently promoting the importance of being environmentally conscious. Likuan, as a leading manufacturer in its field, has a great and important responsibility to lead ongoing conservation efforts. As a result, Likuan has already begun to implement eco-friendly designs and processes into the creation of its products.

Unlike traditional manufacturing processes, Likaun has selected to replace "forging" which uses high level of power consumption with "plastic injection" which reduces carbon dioxide emissions by about 30%. In addition, the plastic interior body is not only free of heavy metals but has an overall weight that is lighter than a brass faucet. Due to the recent hike in oil price, the lighter weight can also help to cut transportation costs by lowering petroleum consumption.

Likuan is a company that aims to reduce its carbon "footprint" by increasing its energy efficiency. We will spare no effort in our responsibility to help create a cleaner, greener and healthier earth.

Innovative Design

Patent (USA, Taiwan, and China) Structure

Patent No.: US 7,360,558 B1 (USA)

Patent No.: M 286348 (Taiwan)

Patent No.: M 281151 (Taiwan)

CN Utility Model No.: 200520012486.7 (China)

Ceramic Disk Valve

US Patent (Pending)

Taiwan Patent (Pending)

CN Utility Model No.: 200620137400.8 (China)

Features:

1. Uses certified plastic material, GE ULTEM-Ceramic & Shank, Noryl-Body.
2. Contains no toxic substances in sections that have contact with water.
3. Utilizes the process of automation to increase the accuracy of quality control.
4. Competitive prices.
5. Weighs less than brass.
6. Warranty: 2 years
7. All products have a smooth 360° swivel.
8. Mounting hardware is included.
9. Available in various colors (refer. Color list)
10. Capitalizes on the durability of metal and the environmentally friendliness of plastic to create quality products.

Operating data:

- a. Water Pressure (Max.): 125 PSI/8.3 BAR
- b. Flow Rate: 1.0 gpm/3.785 lpm at 35PSI/2.32 BAR
- c. Temperature Ratings: 4°C/40°F to 70°C/158°F

Comfortable Life

Lead-Free Drinking Faucets

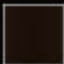

Certified to NSF/ANSI 61
Section 8

> NP3033CP

Available with:

- air-gap
- tubing attached
- quick connector
- multiple spout
- 2" or 3" shank

Colors Available:

			
White	Ivory	Gray	Red
			
Chrome Plated	Antique Brass	Antique Wine	Bright Black
			
Brushed Nickel	Oil Rubbed Bronze	Satin Nickel	Bright Golden

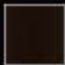

Certified to NSF/ANSI 61
Section 9

> NPB3033CP

Available with:

- air-gap
- tubing attached
- quick connector
- multiple spout
- 2" or 3" shank

Colors Available:

			
White	Ivory	Gray	Red
			
Chrome Plated	Antique Brass	Antique Wine	Bright Black
			
Brushed Nickel	Oil Rubbed Bronze	Satin Nickel	Bright Golden

Certified to NSF/ANSI 61
Section 8

> NCP6033CP

Available with:

- air-gap
- tubing attached
- quick connector
- multiple spout
- 2" or 3" shank

Colors Available:
